

To whom it may concern:

Wild Technologies AI Limited certifies that Miss Hree Farhat successfully completed the remote internship program with the company from 13/07/2020 to 16/09/2020 as a junior data analyst.

During this time, Miss Hree Farhat has been exposed to various challenges and acquired a mix set of skills. Her main project was to analyse programmatically the different survey responses the company was receiving from its users. The project's scope was to provide holistic insights and patterns that aid in driving the next steps of the company in terms of development.

She was also involved in researching the market for potential target users as well as being in charge of managing and preparing the weekly newsletters of the company's mailing list. She has also acquired skills in video editing for the company's YouTube channel.

Miss Hree Farhat displayed professional traits during her internship period, being able to learn and acquire the skills required, mostly by herself, and managed to complete the assigned tasks as requested. She was hardworking, dedicated, and committed. It was a pleasure having her with us in this short period.

Sincerely,

Theodosios Georgiou, PhD
